## DEEP DIVE

Ava Adonia is a 23 year old singer-songwriter and producer from Germany who makes dark pop music.

She spent most of her life being on stage, whether as a dancer, actress or singer. In June of 2021 her first single „Meet Me“ was released.

In May of 2022 she released her debut EP „sweet sixteen forever“, including 8 songs, which Ava wrote and produced herself as well. In the EP she not only experiments a lot with her self-made sound, but also writes about topics like nostalgia, growing up, dreams and nightmares in beautiful melancholy.

In January of 2023 came the release of the experimental dark pop ballad „november“, followed by the Pop / Deep House collaboration „Ocean Waves“ with producer Chris Le Blanc.

Most recently Ava Adonia released her single "escape route", in which she dives even deeper into her own dark Pop sound. For painting an even clearer picture of this world, there is also a music video for the song, in which Ava struggles with herself in the form of a black angel.

With her band she performs her own songs with new twists and live arrangements that stay mostly true to the studio versions, but still giving them a new, exciting character.

In September of 2023 Ava Adonia was awarded the „Kulturförderpreis“ by the Kulturverein Neunkirchen and since March she is a part of season #3 of the Female\* Producer Collective.
